

DUTY SERIES

HEAVYWEIGHT PLATES 300 - 500 KG

The Duty series vibratory plates are presented as the most efficient machines in the category of vibratory plates. Thanks to optimized, interconnected parameters, they achieve the highest cumulative area performance in this category.

Lifting eye

Centrální závěsné oko pro snadnou manipulaci.

Throttle lever

Integrated to the handle.

Service points

Easy access to service points thanks to the service hatches.

Vibration reduction

Four-staged vibration reduction affords high working comfort without any limits of occupational exposure.

Drive control

Implemented to the handle.

Frame design

A high level of coverage ensures protection in the most demanding conditions.

Hydraulic system

Fully hydraulic control system with automatic venting and hydraulic circuit adjustment.

Resistant plate

Made of rolled steel.

Engine

Available with Honda GX series and Hatz B series.
